

Gift Giving Guide

Image	Kit Name	Variety	Effort Level	Time Commitment	Items Needed	Additional Information
	Table Top Farm	Shiitake, Oyster, Lion's Mane, and Reishi	Low	20-30 minutes to set up	Spray bottle and dinner plate/tray	For people who love to eat mushrooms. Kits last about 12 weeks, 3-4 crops over a 12 week period (except reishi which takes up to 12 weeks to develop with only 1 harvest).
	Small TeePee™ Kit	Oyster	Low	30 minutes to set up	Spray bottle and seven rolls of toilet paper	For people who want to plant, incubate, and fruit their own mushrooms from start to finish. Great for kids too!
	Small Plug Spawn Starter Kit	Shiitake and Oyster	Moderate	Half a day to set up	Five fresh cut logs from living dormant trees	Great for people who want long term production. This kit should be planted when days warm up to over 40°F in spring. The spawn can store refrigerated for 4-6 months.
	Sawdust Spawn Bundle	Shiitake, Oyster, Lion's Mane, Comb Tooth, Reishi, Olive Oysterling, and Nameko	Moderate	Half to full day to set up	Twenty-five fresh cut logs	For the mushroom cultivator in your life that needs an upgrade. Includes an angle grinder adapter for high speed drilling!
